

Business BTEC

What is the course about?

The new BTEC Business extended certificate course uses a combination of assessment styles to give students the confidence to apply their knowledge to succeed in the workplace and have the study skills to continue learning on higher education courses and throughout their career.

What type of subjects will I study as part of the extended certificate course?

A wide range of Business topics will be studied including Business & Personal Finance, Marketing, Exploring Businesses, International Business, Managing an Event and Principles of Management

What do I need to know or be able to do before taking this course?

You will learn how to become much more resourceful. A vocational course allows you to develop your research skills by dealing with people in industry and commerce and enables you to "learn through doing" rather than through merely studying theory.

How will I be assessed?

The new course will consist of a range of assessment methods; assignments which are set and marked by the College, controlled assessment tasks set and marked by the exam board and written exams also marked by the exam board. You complete the BTEC extended certificate in year 1 and the BTEC diploma in year 2.

What could I go on to do at the end of my course?

It is possible for you to progress further into higher education, or you can progress straight into employment. If successful there are a variety of potential careers that you can explore, all of which will benefit from your Business qualification

What if I need further advice or information?
